

EH22 (HEAD WITH PHARYNX MUSCLES)

1. Tensor veli palati muscle
2. Levator veli palati muscle
3. Supremaryngeal constrictor muscle
4. Styloid process
5. Styloglossal muscle
6. Styloid pharyngeal muscle
7. Middle pharyngeal constrictor muscle

8. Hypopharyngeal constrictor muscle
9. Crinoid muscle
10. Thyroid hyoid muscle
11. Mandibular hyoid muscle
12. Chinohyoid muscle
13. Diaphragm muscle
14. masseter muscle
15. Temporal muscle
16. Palanopharyngeal muscle
17. Tongue
18. Hyoid bone
19. Thyroid cartilage
20. Esophagus
21. Trachea
22. Cheetah muscles
23. Posterior alveolar artery
24. Chinoglossus muscle
25. Frontal sinus
26. sphenoid sinus
27. Upper turbinate
28. Middle turbinate
29. Lower turbinate
30. Upper nasal meatus
31. Middle nasal meatus

32. Lower nasal meatus
33. Nasal threshold
34. Nasal vestibule
35. Pharyngeal crypt
36. Eustachian tube pharyngeal opening
37. Eustachian tube round pillow
39. Pharyngeal tonsils
40. Soft palate
41. Palatal tonsils
42. Throat
43. Circular oracle bone plate
44. Epiglottis
45. Mouth
46. Hard palate
47. Inherent oral cavity
48. Oral vestibule
49. Vestibular fold
50. Throat compartment
51. Vocal fold
52. Circular cartilage arch
53. Sublingual gland
54. Submaxillary gland
55. Parotid gland
56. Parotid duct
